

Designed exclusively for the A/V Professional.

Rev' up your RGB resolution.

Communications Specialties' Pure Digital Fiberlink® 7250 digitally transmits high-resolution RGB (up to WUXGA) and stereo audio over single mode or multimode fiber!

PURE DIGITAL
FIBERLINK®

Designed and Manufactured
for the A/V Professional by CSI

For decades, A/V Professionals have turned to CSI for innovative and reliable solutions. Now, they have come to count on Pure Digital Fiberlink for the fiber optic audio, video and data distribution they need to dependably deliver incomparable clarity and integrity. Designed from the ground up for the Pro A/V industry, Pure Digital Fiberlink works the way they need it to. And, with the largest breadth of A/V fiber optic products available anywhere, they're certain to find the perfect solution for any Pro A/V architecture.

Pure Digital Fiberlink®. Truly. Purely. Amazing.

- Transmits VGA, SVGA, XGA, WXGA, SXGA, SXGA+, UXGA and WUXGA (640 x 480 up to 1920 x 1200)
- Supports HDTV resolutions of 480p, 720p, 1080i and 1080p (RGBHV format only)
- Uses all digital processing and transmission for crystal clear signals and no color pixel skewing
- Requires no adjustments, equalization or de-skewing during installation
- Transmits signals over two single mode or multimode fiber optic cores
- Unique feature allows the two fibers to be cross connected
