

# Extreme resolutions over fiber is in our genes.

Communications Specialties'

Pure Digital Fiberlink® 7500 delivers DVI (up to 1920 x 1200 or 1080p) and stereo audio over one single mode fiber making it the ideal solution for medical and surgical imaging.

For decades, A/V Professionals have turned to CSI for innovative and reliable solutions. Now, they have come to count on Pure Digital Fiberlink for the fiber optic audio, video and data distribution they need to dependably deliver incomparable clarity and integrity. Designed from the ground up for the Pro A/V industry, Pure Digital Fiberlink works the way they need it to. And, with the largest breadth of A/V fiber optic products available anywhere, they're certain to find the perfect solution for any Pro A/V architecture.

**Pure Digital Fiberlink®. Truly. Purely. Amazing.**
